

Click Security

Company Profile

Welcome To Click Security Systems

Click Security Systems is a Specialist Electronic Security Systems Contractor, that specializes in electronic security solutions for, Industrial, Commercial and Residential applications.

Click Security also offers Turnkey Solutions to, Developers, Managing Agents, Complexes and Estates throughout Gauteng.

The company although still a fledgling has strong origins within the Security Industry. The owner of the company with 25 Years of experience within the electronic security arena, has done it all and is an absolute professional.

Working as a consultant within the industry his knowledge and experience made him instrumental in the implementation of numerous risk mitigation strategies for corporates, industry and private residences.

What sets Cobus apart, is his love and deep understanding of how electronic security systems work and how they can effectively be used to formulate clear and effective solutions in the prevention of crime and the reduction of operational losses as a result thereof, "he is truly a specialist and his knowledge of these systems just incredible"

Click Security does not just compile a solution or quote. Cobus spends time with his clients, to learn and understand their needs and what they would like to achieve and then also guides them through the installation process, what equipment will be used and what benefit it will be to them, so to speak a tailor made solution unique to their needs.

When Passion Meets Perfection

"I started this business because of my passion and love for electronic security systems some time ago. My belief is that clients deserve that personal touch and attention to detail when it comes to securing their homes and businesses.

I have 25 Years of experience under my belt and have done numerous solutions for Corporates, Complexes, Developers and Executive home owners with only one thing in mind and that was to create a safe space for families to live in and to create a safe space for staff and visitors alike, but also to keep your companies assets safe and secure.

Get in touch with me and I promise to provide you with a security service none to other as I get personally involved in every step to securing your property.

Click Security's Services

Assistance with Insurance Claims:

We can provide assistance during these difficult times. The loss of technology as a result of atmospheric, environmental or crime leaves one in a position of inadequacy at a time when needed the most.

Project Management:

Consider using our in-house project management service to ensure that the security measures and requirements in respect of installations are negotiated with your architects and building contractors.

Security Consulting Services:

We offer these services to Developers, Managing Agents & Architects, whereby we assist with the planning and Implementation of all electronic security matters for Complexes, Estates, Office Parks and Shopping Centres.

Leading Edge Electronic Security Solutions

Click Security Systems is a professional Electronic Security Systems and Automation Systems Contractor, boasting 25 years of experience within the security industry. We offer professional surveys to ensure that the correct equipment is selected for your specific needs. Click Security only install top quality equipment from leading manufacturers, due to their after sales service support and warranties.

Service & Installation Of Alarm Systems

Service & Installation Of Access Control Systems

Service & Installation Of Traffic Barrier Systems

Service & Installation Of CCTV Systems

Service & Installation Of Gate Motors

Service & Installation Of Garage Motors

Intercom Installations

Installation Of Integrated Access Control Systems

Projects Consulted on & Spec'd By Click Security

All of the below projects was successfully implemented and commissioned

IPSOS Bryanston (New Building)

Scope Of Project

Spec'd Access Control System – Comprising of Fingerprint Readers at the two main entrances and two basement doors to the building as well as access control throughout the building and server room. A Total of 11 doors were done.

Spec'd Alarm System – AJAX wireless system throughout the building comprising of a main Hub with two Range Extender units, smoke detectors and Outdoor Motion-Cam Sensors.

Spec'd CCTV Systems – Complete IP CCTV system throughout the internal and external areas of the building.

IPSOS Randburg

Access Control System – Upgrade of the existing Access Control system with new fingerprint readers.

Moiprox Developments

Scope of Project

Installation of Centurion Boom System comprising of two booms for the entrance area 1 x for visitors, 1 x for residents and exit boom.

Access Control was integrated to the boom system so that residents can TAG in and out and there was another access point installed at the pedestrian gate.

CCTV System was installed comprising of cameras with an overview of the entrance area and cameras installed along the boundary wall of the Complex.

This is an example of a Developer who intrusted Click Security to assist with all the planning of the complex's electronic security systems, cable routes were planned positioning of booms etc. This made the developers work easier and more cost effective to have us involved from the get go.

Niche Kids – Fairland

Scope Of Project

Installation Of AJAX Wireless Alarm System.

Installation of CCTV System

MSC Cruises SA Woodmead

Scope Of Project

Spec'd Access Control System 32 Doors.

Spec'd CCTV System 40 Cameras

Spec'd IP Video Intercom System

Spec'd Booms with integrated Access Control System.

This was one of my favourite and most rememberable projects.

Auckland Park
Preparatory School

Auckland Park Preparatory School

Scope Of Project

The existing alarm system was upgraded to an AJAX Wireless system, comprising of Hub, 2 x Range extenders and 50 Devices.

Click also spec'd new cameras for the school.

Reddford House Schools

Northcliff

Scope of project

Implemented a new alarm system

Implemented a new CCTV system throughout the school.

Blue Hills

Scope of project

Implemented a new CCTV system throughout the school.

The Hills

Scope of project

Implemented a new CCTV system throughout the school.

Midstream Estates

Project Scope

The client required a panic solution at all of their estate entrances, that will alert the Control Room of any Emergencies at any of these Estate Entrances.

Panic systems were implemented and connected to the control room via radio transmission from each gate.

Due to the infrastructure that was implemented, home owners could now also link their alarm systems to the control.

Click played a vital roll, in assisting to make the Estate safe and secure for, Estate Security, Home Owners and Business Owners within the Estate.

Solenta Aviation – New Building Fourways

Project Scope

Spec'd new Access Control system for the building

Spec'd new Alarm system for the building

Spec'd new intercom system for the building.

Project was successfully completed.

Click Security has proven itself over the years to be a fundamental role player, in providing clients with "top notch" security solutions.

"I treat every new client with the utmost respect, and promise to deliver to their expectations"
